# Introduction

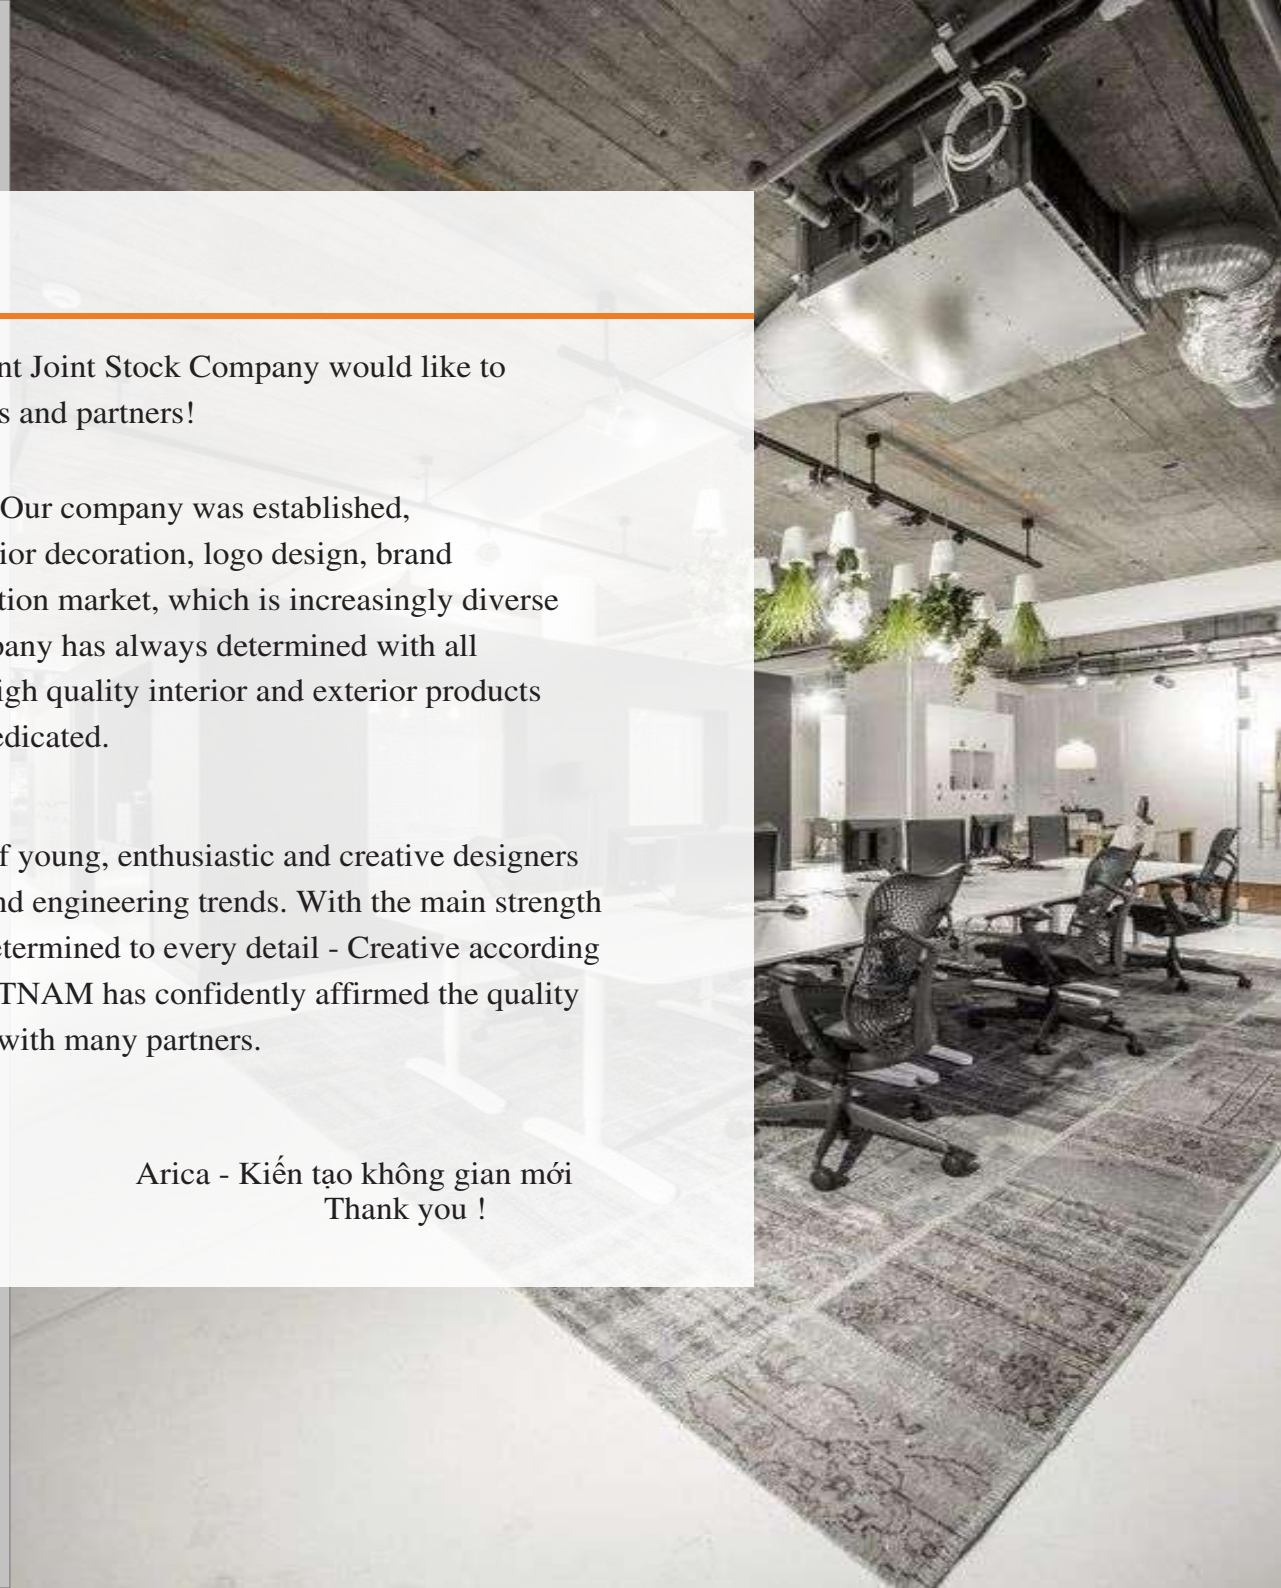

---

First of all, ARICA Vietnam Construction and Investment Joint Stock Company would like to send respectful greetings and cooperation to all customers and partners!

ARICA Vietnam officially came into operation in 2017. Our company was established, specializing in Design - Construction - Interior and exterior decoration, logo design, brand identity. In order to meet the interior and exterior decoration market, which is increasingly diverse in quality, design, rich in materials and colors. Our company has always determined with all efforts and dedication of all staff to bring to customers high quality interior and exterior products with reasonable cost and services after-sales attentive, dedicated.

ARICA Vietnam is proud to be a company with a team of young, enthusiastic and creative designers who are always learning and updating the latest design and engineering trends. With the main strength of interior design consultancy, with the design motto "Determined to every detail - Creative according to the Latest Trends - The fastest progress", ARICA VIETNAM has confidently affirmed the quality of its service and high aesthetics in each of their designs with many partners.

Arica - Kiến tạo không gian mới  
Thank you !

## ABOUT US

Officially put into operation in 2017, we are proud to be a company with a young, enthusiastic and creative design team who are always learning and updating the latest design and engineering trends. With the main strength of interior design consulting, with the design motto "Pure to every detail - Creative according to the Latest Trends - The fastest progress", Arica Vietnam has confidently affirmed the quality of its service, and high aesthetics in each of their designs with many partners.

## VISION

We aim to become a member of the top 5 largest furniture enterprises in the North by 2025, conquering and cooperating with domestic corporations and foreign investors. Along with that, the enterprise hopes to reach a revenue of VND 100 billion and the office staff system is stable at 40 dynamic, enthusiastic and engaged employees.

## MISSION

### Arica's mission statement

#### For employees:

The company always creates a working environment, giving incentives for the best recruitment, training and welfare policies.

#### For customers:

The company always meets and satisfies all the needs of domestic corporations and foreign enterprises with creativity, newness in ideas, outstanding product quality and prestigious, specialized customer care services. career.

#### For the community and society:

The company is committed to not only always complying with the law, but also making an annual contribution to the study promotion fund in the locality, helping poor children have conditions to excel in their studies, promoting and creating a better learning environment. The school encourages the spirit of overcoming difficulties and becoming the future owners of the country.

## CORE VALUES

### Creation:

We focus on research to be able to consult and design unique products, ideas, utility to use, feasible in terms of construction and production.

### Leader:

We focus on exploring and understanding the needs of sophisticated niche markets, investing in research to deploy services and provide products with the highest determination to conquer.

### Quality:

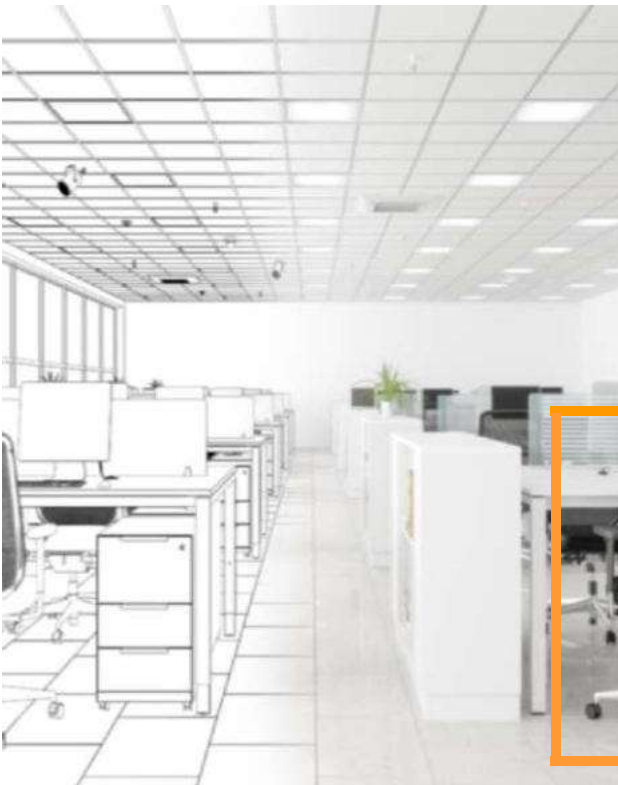

We always provide high quality office furniture products

The best quality, in line with the customer's cost.

### Main product:

Design consultancy, production and construction of office furniture, apartments, townhouses, villas, hotels, showrooms, cafes...

## WORKING PROCESS

**Arica Decor** has always kept in mind: the essence of design is to care for the smallest detail of each product created. We want to affirm that **ARICA DECOR** not only stops at the designs on paper but also cares a lot about the true value of each product when applied in real life.

We aspire to become a value-added civil construction service provider, aiming to become a standard and pioneering model in the field of construction in Vietnam market.

## INFRASTRUCTURE

### Factory:

- In order to create the best quality products, the company applies a technological process for each stage, the product is manufactured from raw material processing to finished products, which is always a continuous process: wood is impregnated and dried, produces veneer, finished according to the highest quality and technical requirements.
- We invest in a system of modern and high-class woodworking and production machinery imported from Italy, Germany and Taiwan at the factory.
